

Feeling the weight of reworking QFP BIBs?

Let Plastronics
lighten your load.

PLASTRONICS

Plastronics has been in the burn-in socket business for over 30 years. We understand your needs when there are new requirements with no apparent Burn-In or Test socket solutions. We are here to help.

Plastronics has the most wide-ranging line of sockets for QFN style devices on the market.

Not on paper.

Not in the future.

Now.

They are used in semiconductor facilities around the world for MLF™, BCC and LPCC type packages.

In addition to our QFN socket line we have an extensive line of BGA, LGA, LCC, PLCC, SO, and our latest socket series, Pressure Mount QFP sockets.
